1. Introduction to the Committee

WHO was founded in 1948. It is a United Governments agency that serves the purpose of connecting nations, partners, and people in order to encourage healthy living, make healthcare widely accessible, and protect the vulnerable. Therefore everyone, everywhere can achieve the best possible physical and mental condition. WHO is in charge of global efforts to attain universal health coverage.

2. Introduction to the Topic

Learning our way through change: the way each country battles crises such as a global pandemic by adapting to the circumstances and educating its citizens.

3. Points to be Addressed

- How is your country's government dealing with the pandemic? To what extent has it risen to the occasion?
- What measures has your country taken to maintain a safe and educated community?
- What is the current percentage of vaccinated in your country? What is expected for the future?
